

**Excel Door Supplies Ltd**  
AT THE CUTTING EDGE OF COMPOSITE DOOR TECHNOLOGY

## ABOUT THE DOOR

Excel manufacture using polypropylene, the Capstone SecureDesign™ Door Slab is at the heart of all our doors and gives the slab superior strength.

The stiles and rails are composed of a water-resistant polymer which are bonded to the skin and then filled with an insulating core of 100% CFC- free polyurethane.

The main benefits of the door are:

- > The door is 9 times more thermally efficient than a timber door
- > Through-colour GRP, UV stable skin, meaning no painting or maintenance needed
- > Manufactured from high impact-resistant materials to offer high levels of security
- > Hung into a fully reinforced 70mm profile outerframe
- > Standard glazing sizes and a range of stunning decorative glass available

## DOOR DESIGNER

Make sure that the door you choose is the perfect fit for your property by using our door designer. It is often difficult to visualise what your new door will look like in situ. Our door designer lets you see just that by allowing you to upload a picture of your home, and see exactly how your choice will look in reality.

### You're the designer!

Choose the style of door, add a colour of your choice, and then choose from the beautiful range of decorative glass available. Finish your door off by adding the hardware, and then view the finished article on a picture of your home.

## ENCLOSED MINI BLIND OPTION

Control light and privacy with instant fingertip control when you select an integrated door blind. This Venetian blind is cleverly encapsulated within the insulated glass cavity of this door to provide a zero maintenance blind. The blind can be raised, lowered and easily tilted using the unobtrusive fingertip control on the edge of the frame. Say goodbye to tiresome dusting and hello to a beautifully controlled environment you'll love!

RAIN

SATIN

## | CARE AND MAINTENANCE

Your new door should keep safe and secure for years to come however with all products and especially those that are exposed to the elements we recommend that you carry out a care and maintenance routine.

- > Door frames should be washed with warm soapy water only.
- > The door leaf should only be cleaned using warm water or non-aggressive composite door wipes. No solvent-based product or abrasives should be used as these will damage the surface of the skin.
- > External glass should be cleaned with warm soapy water and cleaned with a proprietary glass cleaner.
- > Hardware can be cleaned with a mild detergent and wiped clean. No harsh chemicals or abrasives should be used.
- > Maintenance of the door may be required to maintain any guarantees from the installer. Hinges should be lubricated with engineering oil. Cylinders can be lubricated with Teflon-based products only, as other oils may cause degradation. If necessary, a small amount of lubricant can be applied to the moving parts such as letterplates, handles and knockers.

# I DOOR COLOURS

Our doors are available in a range of carefully chosen colours to fit in with the style of any property. Stunning wood grained doors are also available to offer a traditional 'timber look' finish.

## STANDARD DOOR COLOURS

WHITE

RED

BLUE

GREEN

BLACK

## PREMIUM DOOR COLOURS

CHARTWELL GREEN

ANTHRACITE GREY

GOLDEN OAK

ROSEWOOD

## LOOKING FOR A SPECIFIC COLOUR?

Not a problem! All of our doors and frames can be sprayed in any RAL colour of your choice!

Colours that appear in this brochure are for representation only due to the limitations of the printing process. A colour swatch is available upon request for a true colour representation.
